SUMMARY

I'm a 29 years old C/C++ developer interested in embedded systems, microcontrollers, and electronics, with some experience in the VOIP industry. I also worked on financial-related projects. I am passionate about programming and very flexible in investigating new roles. I prioritize user feedback first, and also I try to moderate the project deadlines.

EXPERIENCE

TOSAN

C/C++ DEVELOPER

04/2021 - PRESENT

Tosan is a company with products focused on banking solutions. The range of products is from core banking services to ATM and POS software

- Worked with Cpp11, Qt5, Python
- Worked with financial protocols such as Iso8583, Wosa XFS
- Encryption algorithms like RSA, ECDH, ...

ARYA SAMANEH

C/C++ DEVELOPER, VOIP BACKEND DEVELOPER

04/2018 - 03/2021

Arya Samaneh is a company with more than a decade of experience in VOIP telecommunication. Also, the company has a multi-platform application that end-users can message or call each other.

- Worked with Cpp11, Cpp14, Qt5 for client application
- PHP7, Lua for backend with Debian9 OS
- Also worked with PostgreSQL, MongoDB as the database for the system
- Opensips, Freeswitch for handling VOIP calls.

ACOFRA

EMBEDDED DEVELOPER

09/2016 - 01/2019

Acofra is a product design company that its focus is on digital and electronic instruments based on customer request.

- Worked with C for STM32(ARM), AVR(AtMega) microcontrollers
- Worked with C for microcontrollers
- Vuejs for the control panel on PC to communicate with the board
- Also worked with Android (Java) for the android client app.

MERSA

EMBEDDED DEVELOPER

09/2017 - 03/2018

Mersa is a product design company. They consult customers to make their products cheaper during manufacturing

- Worked with C for STM32(ARM), AVR(AtMega) microcontrollers and ESP8266 WIFI chip
- Also worked with Raspberry Pi 3 on a project to play 1080p movies
- Worked with Android (Java) for android application
- Using Eagle CAD to design PCB boards

ARIO ENGINEERING GROUP

EMBEDDED DEVELOPER

09/2014 - 09/2016

Ario was a group made with Robotics students in university to participate in Robotics competitions.

- Designed a flight controller for a UAV robot with a AtMega2560 microcontroller
- Using EagleCAD to design its PCB

EDUCATION

SHAHROUD UNIVERSITY OF TECHNOLOGY

BACHELORS ROBOTICS ENGINEERING

09/2012 - 06/2017

REFERENCES

“

We currently are working together at Tosan company. In my opinion, Reza is a passionate and motivated developer. He always tries to do his tasks in the best way and on time. He has good knowledge of programming languages especially C/C++ and also has a good technical level here in this company as a developer. More importantly, he is a fast learner and would like to learn new skills from other colleagues. Moreover, if a person needs any help at work, he is ready to contribute to others to resolve their problems. Reza is amazing and this is not only my opinion, other colleagues have the same opinion as me.

— BEHNAM ARAZKHANI, SENIOR C/C++ DEVELOPER AT TOSAN
